

RIM of PROSPERITY

Why Getit Rim?

Getit has established a very strong backward integration with quality rim factories from China in the shortest period of time. They are reputable and largest rim factories at different province, from Ningbo, Qingdao, Tienjin, Guiyang and ShengChen.

We cooperate in providing **FACTORY PRICE** of the rims to our consumer in Brunei. All the price in this magazine is inclusive of low sea freight charges and door to door service directly to **YOUR HOUSE**

The design of the rim can be very subjective according to individual preference. As such, how could we search the rim you have in your minds QUICKLY with the five factories is the key success factor of how we stand out from the rest of online business and Rim retail shops in the market

Alliances with 4 major factories in China

No monthly rental charges, just divide product price by 4 months (max) as monthly prepaid amount. This is for customer who do not want to invest in one big sum in one time. We will send the rims once the last prepaid amount is settled

**RENT NOW,
OWN LATER**
