MATCHING  
CAMPAIGN**

# PRICE MATCHING CAMPAIGN

At Getit, we monitor pricing on a huge range of Samsung products online and in store EVERYDAY. We will try our best to MATCH any price undercutting by "Hit & Run" competitor through this Price Matching Campaign. 2 simple steps for you to join:

## How to join?

(1) Simply present proof of the competitor's offer price and purchased quantity (screenshot / photo) through Whatsapp or FB messenger to us.

(2) Once your price match request is verified and the competitor's product is confirmed as being in stock (not display set) and available for immediate sale using the same payment method, we will propose a counter offer to you. Other than pricing, we strongly believe that **you will always look into customer service, product knowledge and the consistency of a company in marketing or promoting the Samsung products.**

## What are the exclusions in this Price Matching Campaign?

(1) Competitor offers which include cash back, bonus, bulk purchase, quantity limits or packages.

(2) Competitors' offers not available to the general public - including trade, special event, club or membership offers.

(3) Clearance, seconds, refurbished, ex-demonstration or display sets.

(4) Competitor's pricing error. Their clearance price on aged discontinued model.

[You can always message us to check the model and years of production of any Samsung product]
