What is wobble™ technology?

CLICK HERE

Tangles less. Cares more.

Wobble technology provides gentle care of fabrics without compromising washing performance. Wobble pulsators generate a dynamic, multi-directional washing flow that prevents tangles and increases washing power.

Less Time on Washing

It starts from 9KG **Series 5700**

Easy pre-treatment

The activ dualwash system includes a sink for a convenient place to hand-wash delicate items and pre-treat heavily soiled clothes.

One press button water jet

A water jet starts and stops at the push of a button.

Dissolves detergent for optimal washing

Magic dispenser lets you wash with less worry about residual detergent. It creates a powerful water vortex that dissolves detergent and disperses it evenly before the wash cycle starts.

Tangles less. Cares more.

Wobble technology provides gentle care of fabrics without compromising washing performance. Wobble pulsators generate a dynamic, multi-directional washing flow that prevents tangles and increases washing power.

Less Time on Washing

It starts from 9KG **Series 5700**

Powerful filtration and easy cleaning

A Magic Filter effectively gathers the lint, fluff and particles that come out of your clothes, so your laundry stays cleaner, while protecting your drainage from getting clogged up. And it's easy to clean.

Streamline, ergonomic design

An ergonomic and streamline design looks good and lasts longer. Its elegant, round edged design has a slanted, dual cluster control panel, with an ice blue LED display, and a glass door, so it's easy to see inside.

Elegant blue display

The streamline, modern design is complemented by a brilliant ice blue LED display that adds an extra touch of style. It provides extremely clear information about programs so the machine's much easier to control.

Easy to control

Features a Rear Control Panel that's easier to see and safer to use as it's protected from direct water splashes. Its dual cluster design also clearly separates the buttons, so they're more intuitive to use.

Less Time on Washing

It starts from 9KG **Series 5700**

Beautifully curvaceous

Features a smooth, round edged design, so it looks extremely elegant and will blend seamlessly with any modern décor. Even its hinges are fully covered and rounded, so they look neat and are easy to clean.

Clearly more durable

A tempered glass door makes it easy to see inside, but will last much longer. It's designed to withstand a great deal of pressure and is resistant to damage and scratches.* So it stays looking good for a long time.

Easy Trouble-Shooting

The Smart Check automatic error-monitoring system detects and diagnoses problems and provides easy troubleshooting solutions using a smartphone App.* So it saves you time and avoids the cost of engineer callouts!**

* Available on iPhones and Android devices. ** Service callouts will occasionally be required and may incur extra repair costs.

Keeps your washing machine fresh

For the ultimate in convenience, Eco Tub Clean course keeps your top load washer fresh without using harsh chemicals. And it can even notify you automatically when it needs cleaning.

Less Time on Washing

It starts from 9KG **Series 5700**

Thoroughly clean

The Water Fall technology delivers more cleanliness and rinsing. Its powerful, concentrated water spray ensures detergent is distributed evenly, so it washes your laundry more thoroughly.

Gentle Fabric Care

The Diamond Drum features a unique "soft curl" design with smooth, diamond-shaped ridges that's gentle on your clothes. Its small water exit holes also mean fabric is less likely to be trapped and damaged.

Simply add any item, anytime during wash

Add Wash lets you simply and quickly add forgotten clothes after your cycle has already started. You can also pop in hand-washed clothes to rinse or spin dry.

Ecobubble-Undeniable performance of bubbles

Add Wash lets you simply and quickly add forgotten clothes after your cycle has already started. You can also pop in hand-washed clothes to rinse or spin dry.

Powerful Cleaning in Less Than an Hour

The new Samsung washing machine can complete your washing in just 59 minutes. It uses Speed Spray to rinse the clothes more powerfully, and accelerates the spin speed to complete the washing in just 59 minutes.*

Intensive Stain Removal

With the touch of a button Bubble Soak technology helps remove a variety of stubborn stains. Clothes are thoroughly soaked in bubbles, so stains are loosened and removed effectively.*

Less Time on Washing

It starts from 8KG **Series K**

Extraordinarily beautiful design

The Crystal Gloss Door, in transparent White or Ocean Blue, offers the ultimate in aesthetic pleasure and can infuse your home with an ocean-like calm. The handle is also 45 degrees higher, so it opens easier.

Works smart. Stays young.

A Digital Inverter Motor delivers superior energy efficiency, minimal noise and long-lasting performance. It consumes less energy than a Universal Motor and provides outstanding durability. **

Easy troubleshooting

The Smart Check automatic error-monitoring system detects and diagnoses problems and provides easy troubleshooting solutions using a smartphone App. So it saves you time and avoids the cost and inconvenience of unnecessary engineer callouts!

Wash Cool, Save Energy

Save a huge amount of energy* by washing large loads at low temperatures using Eco Bubble™ technology. Bubbles activate detergent, so it quickly penetrates fabric and removes dirt easily – even in cool water (15°C).

Intensive Stain Removal

With the touch of a button Bubble Soak technology helps remove a variety of stubborn stains. Clothes are thoroughly soaked in bubbles, so stains are loosened and removed effectively.*

Air Wash (Deodorization + Sanitization)

Air Wash technology deodorizes and sanitizes your clothes, so they always smell fresh. Using just heated air, unpleasant odors are removed and bacteria eliminated without using water, detergent or other chemicals.

Guaranteed Durability

A Digital Inverter Motor delivers superior energy efficiency, minimal noise and exceptionally long-lasting performance, so it's certified to work for 20 years* – backed-up by a 10 year warranty.

Add wash with

It starts from 8KG **Series K**

Chemical-Free Drum Sanitization

For the ultimate in convenience, Eco Drum Clean technology keeps your front load washer fresh without using harsh chemicals. And it can even notify you automatically when it needs cleaning.

Save Time on Smaller Loads

The Quick Wash program is the perfect solution for your busy life – cleaning lightly soiled clothes quickly and efficiently, so you can enjoy more time for yourself.

Gentle Fabric Care

The Diamond Drum's unique "soft curl" design with smooth, diamond-shaped ridges is supremely gentle on your clothes. Its small water exit holes also help protect fabric by preventing clothes from becoming trapped.

Penetrating cleaning and rinsing

Eco Bubble™ technology to generate foam that quickly activates detergent, so it removes stain more easily. 2 Water Shots also fires jet of water to help detergent penetrate clothes, before rinsing out residue.

11
YEAR
WARRANTY
on
digital inverter
motor

Works smart. Stays young

The Digital Inverter Motor works without an additional power supply and does not require carbon brushes. So it can guarantee a 11-year warranty.

Peaceful washing anytime

Innovative VRT technology reduces noise and vibration during washes. Spinning steel ball bearings keep the drum balanced even in high spin speeds.

Eco Drum Clean

The Eco Drum Clean function keeps the drum, diaphragm and door glass clean and hygienic using hot water and a high-speed spin cycle. So it's eco-friendly and saves you money on detergents.

what is **Twin Cooling Plus™**

for Top Mount Freezer Fridge?

CLICK HERE

Samsung Twin Cooling Plus:
Friend of Friends

Moisture-Full Freshness all over the fridge

Only Twin Cooling Plus™ creates a favorable environment for preserving fresh food in the fridge with up to 70%* humidity, compared to 30% in a conventional TMF. So it keeps ingredients fresh for longer without drying out.

Deliciously tasty, odor free frozen food

The Twin Cooling Plus™ system cools the compartments separately to stop unexpected odors spreading from fridge to freezer. So frozen food retains more of its original flavor.

Bought too much? Don't worry about space!

A spacious interior holds up to 620 net liters, as SpaceMax technology™ creates more space inside without increasing the external dimensions. So it's quick and easy to store and find all of your weekly grocery shopping.

5 Conversion Modes on demand

Provides the ultimate in flexible storage. Easily convert your freezer into a fridge to keep all the fresh food you need to store for different seasons or special occasions. Or switch to off* mode to save energy.

Samsung Twin Cooling Plus:
Friend of Friends

Creates ice and chills beverages

Rapidly delivers intensely cold air to fast freeze or cool. At the touch of a button, Power Cool quickly chills food and drinks, while Power Freeze is great for freezing or firming up frozen food and making ice.

Works longer more quietly & uses less energy

Digital Inverter Technology automatically adjusts the compressor speed in response to cooling demand across 7 levels. It uses less energy, minimizes noise and reduces wear and tear for longer-lasting performance.

Easily organize and serve deli foods

The detachable Deli Tray has a compact design that makes efficient use of the "wasted space" in fridges. It's the ideal way to store deli foods or freshly prepared ingredients and serve items directly at the table.

Keeps air hygienically clean and fresh

An Anti-Bacterial Protector keeps the fridge clean and hygienic. Air is passed through an Activated Carbon filter, so it is constantly sterilized and deodorized,

Clearly see everything inside

High efficiency LED lighting is slimmer, cooler and more power-efficient than conventional lighting. Located on the top and sides, it beautifully and brilliantly illuminates every corner, ensuring better visibility.

what
is

Twin Cooling Plus™

for Side by side Fridge?

CLICK HERE

Samsung Twin Cooling Plus:
Food ShowCase

Twin Cooling System™ gives you the best of both worlds

Used two separate air flows and precise temperature control to maintain optimal humidity levels on both the refrigerator and freezer sides. This Twin Cooling System™ helps keep your apples fresh, prevents your ice cream from getting freezer burn, and stops ice cubes from smelling like the garlic bread you've stored in the refrigerator.

Multi Flow

Multi Flow works on every level—with small vents over each shelf—to maintain an even temperature throughout the refrigerator, especially after you open the door. By cooling every section of every compartment at the same time, it helps your foods stay fresher longer.

Bring frost-free freshness into your kitchen

You no longer have to empty out the fridge or freezer during a routine defrosting, because there is no more routine defrosting. Samsung's No Frost feature ensures even cooling to eliminate frost and icy build-ups. Now you can keep all your perishables fresh and nutritious, and have more time for other chores or fun activities. By maintaining an even temperature, No Frost puts less demands on energy needs, which increases the durability of the cooling system

A brighter way to save energy

The stylish Tower LED lighting bathes the interior with light that beautifully presents all your groceries. Items are easier to find. The space-saving design of the lighting opens up more room for food. It also emits no heat and uses less energy than conventional bulbs, both of which help to lower your energy bill.

what is Triple Cooling Plus™

for French Door Fridge?

CLICK HERE

Samsung Triple Cooling Plus: Flexizone

Revolutionary triple cooling

A Triple Cooling System independently controls and optimizes the temperature, maximizes humidity and prevents odor mixing in 3 compartments.

Holds in cold for freshness

The Metal Cooling guard retains the cold and helps to restore heat loss, so food is preserved better and stays fresh, even if you frequently open the door. And it adds a premium look and easily wipes clean.

Precisely maintains freshness

To keep food fresh for longer Precise Chef Cooling technology minimizes any temperature fluctuation to within just $\pm 0.5^{\circ}\text{C}^*$ by frequently sensing changes and then precisely controlling the operation of the compressor

More space on demand

The CoolSelect Plus zone offers the ultimate in food storage flexibility, so everything stays fresher. With one touch the compartment can be easily converted from fridge to freezer using four temperature settings.

what is **Triple Cooling Plus™**

for French Door Fridge?

CLICK HERE
Samsung Twin Cooling Plus:
What if Flexizone

Ideal care for meat & fish

The Fresh Zone is smartly designed drawer that provides the ideal environment for preserving meat and fish – keeping them at the optimum temperature so they stay fresh and have the best possible flavor.

Easily reach & use the entire top shelf

The Multi Cube Basket can be pulled out and moved, so it's easy to access items and make full use of the top shelf. Especially as it has three areas for selected items, such as salad vegetables, sauces and snacks.

Move your food – anywhere

A Lock N Move Tray is airtight and movable and fits on rails, so you can easily reach your favorite things in the fridge or freezer. It's ideal for storing and defrosting meat in the fridge or preserving dried food, like tea in the freezer.

Store & organize more food

A large 500 liter capacity provides enough space in the fridge and freezer to store many more items and ensure they are well organized. And its 4 doors open out wide so you can quickly see everything at a glance
